instagram: reejan.pariyar · York, UK
reejanpariyar.q.uk · Pariyar Company Ltd. · Open to remote & hybrid

PROFILE

Nepali international student, self-funding a BSc in Computer Science at York St John University (graduating 2028). Working toward Cloud Security Architect via hands-on AWS deployments, Terraform infrastructure-as-code, and a public GitHub learning repo. First paying cloud client delivered under Pariyar Company Ltd. Available for placements, internships, and part-time remote engagements.

TECHNICAL STACK

Cloud & Infrastructure —

AWS EC2 S3 IAM CloudFront Route 53 Terraform Docker

Code —

Python boto3 Bash C SQL HTML/CSS

Pipeline —

Git GitHub Actions pytest Linux Kubernetes REST APIs

Next up —

JavaScript React Node.js Security tooling

PROJECTS

Buona Pizzeria · **Pariyar Company Ltd.** Mar 2026 · Client #01

First paying client — Roman pizza pop-up in York. Production website on S3 + CloudFront, DNS via Route 53, full environment in Terraform.

AWS S3 CloudFront Route 53 Terraform

- Delivered end-to-end: scoping, build, handover under own company
- Sub-£5/month infrastructure, global edge delivery, zero server
- Caught and resolved an accidentally committed AWS secret key — rotated, audited CloudTrail, documented as a security lesson

Cloud Resume Challenge · **Self** Apr 2026 · Building

The full challenge without clicking the AWS console — everything in Terraform.

Terraform CloudFront Lambda DynamoDB GitHub Actions

- Static front end + Python Lambda visitor counter + CI/CD pipeline
- GitHub Actions: terraform apply → S3 sync → CloudFront invalidation on every push

cloud-engineer-journey · **github.com/ReejanPariyar** Jan 2026 → · Public repo

Public learning repo — every phase committed with working code and notes.

Python boto3 Bash Docker Terraform Kubernetes GitHub Actions

- Real AWS deployments (EC2, S3) — not sandboxes — with Terraform state as evidence
- Phases: Linux → Git → Bash → Docker → Terraform → boto3 → CI/CD → Kubernetes → REST APIs

EXPERIENCE

Freelance Cloud Engineer · **Pariyar Company Ltd.** 2026 — Present · Freelance

- Scoped, built and delivered Buona Pizzeria — first paying client
- End-to-end AWS architecture, Terraform IaC, domain configuration

Cloud Computing Intern · **CodeAlpha** 2026 · Remote internship

- Cloud computing internship alongside first-year degree studies

Prep Chef · **Cresci Pizzeria** 2025 – Present · Part-time, York

- Self-funding degree and certifications from this role
- High-pressure kitchen environment — precision, reliability, calm under stress

Front of House · **Bengal Brasserie** 2024 – 2025 · Part-time, York

- First UK employment after relocating from Nepal

Kitchen Porter / Prep · **Guy Fawkes Inn** 2024 · Part-time, York

- Kitchen operations and prep in a historic York venue

EDUCATION

BSc Computer Science · **York St John University** 2025 – 2028 · In progress

- Self-funding as an international student from Nepal
- IELTS 7.0 — English language proficiency
- Balancing full-time studies with part-time work throughout
